Mackmyra Special:02 - The Anniversary Edition

Something to celebrate

A decade has passed since the concept of a Swedish malt whisky was born. A decade since the very first drops were distilled and the drink started to take form. History was written and Sweden became a whisky nation.

Swedish oak

The flavours have their roots even further back in the past. Over more than a century, a fiery spiciness has developed in Swedish oak. Now it

lends depth and character to this anniversary whisky, against a balanced background featuring hints of vanilla from bourbon casks.

Ice cream wafers and ginger drops

Special:02 – The Anniversary Edition is a spicy whisky with hints of Swedish oak, roasted ice cream wafers, tar and acidic ginger drops. A Swedish malt whisky in memory of days gone by.

Limited edition

We are constantly striving to evolve. That is why there is a wide range of flavours in our warehouses. The very best of them have been combined to make Mackmyra Special, a limited edition series for special moments.
